prices subject to change

Soft, shredded natural latex

(blended Dunlop and Talalay) conforms to your neck and shoulders for secure yet moveable support.

Organic wool

is a natural insulator (from heat or cold) and improves air flow. Wool also promotes moisture evaporation for drier comfort.

Organic kapok

offers luxurious softness and "fluffability." Kapok is a buoyant natural fiber that is often used as an alternative to down.

Organic wool & shredded latex

combine to create a unique pillow. Wool fiber promotes air circulation to prevent heat buildup; latex gives the pillow a responsive, luxurious feel.
